Percy Lake 75 Acres

A rare opportunity to acquire an incredibly large estate lot property. With just shy of 1/2 a mile of water frontage. This stunning 75-acre property is already subdivided into 5 buildable estate lots of varying sizes from 4.5 to 22 acres. Keep whichever lot you require or utilize them all. Increasingly rare to find such large water frontage - from private cove to sandy beach to cliff top and stunning unadulterated views towards the conservation lands of the near 900-acre Haliburton Forest and Wildlife Reserve. All with Hydro available nearby. In clouded part ownership of the surrounding 1200 acres of the Percy Lake Conservation.
