The open flowing rooms make this home ideal for entertaining. The living room and sunroom offer multiple seating areas all which enjoy long views over the property. The vaulted ceilings, brick fireplaces and over-sized windows are all noted design elements.

Off the foyer is a large den with fireplace, built-in bookcases and large windows. The Den is a much-enjoyed evening room. Also on this level is a 2-piece powder room.

Primary Bedroom Suite

The primary bedroom suite has a walk-in closet, reading area, large en suite bathroom, extensive built-in cabinetry/dressers and a walk-out to the porch and gazebo. The room has views in 3 directions and is exceptionally well designed.

Walk-Out Lower Level

The main staircase leads to the walk-out lower level and the 2-storey windows allow light into the foyer. The lower level has 3 or 4 more bedrooms depending on how you wish to use the additional office, 5-piece bathroom, games room, brick fireplace, living room, office and a large Muskoka room with walk-out to the grounds. At the east end of the lower level is the utility room with ample storage space.

The large gazebo with power has a vaulted ceiling and is a wonderful place for outside dining or just relaxing outdoors. The gazebo has views over the grounds and over the pond.

3-Bay Garage and Stable

Across the driveway from the home is the large 3-bay garage with automatic doors. The extra-deep garage offers room for additional storage. The 6-stall stable has a heated tack room, feed room, and a large loft for hay storage. There are multiple large paddocks well placed off the west side of the stable. The stable was constructed by the noted barn builder, Dutch Masters Construction.

The Pool

The pool was intentionally placed in a private setting surrounded by landscaped gardens, multiple seating areas, rolling lawns and large trees.
