Situated between a 650 acre crown island to the west - Batteau Island - and a spectacular 20 acre private island on the east. A vintage Georgian Bay style cottage (circa 1920's) overlooks a perfectly formed natural granite harbour. The western shore of Killarney features breathtaking views of open water to the "Minks", "Red Rock" lighthouse and beyond. This site would be ideal to construct a new cottage. Other features of Killarney include an interior forest with oak and other hardwoods, a natural sand beach and wonderful expanses of smooth pink granite. Approximately 6 acres - hydro available.
