

View Point, King

Location: King

Acreage: 59 Acres

Price: \$3,500,000.00

Impeccable and inspiring. Perhaps the best views in King Township. This stone and board and batten residence is located on one of King's highest ridges. Views as far as the eye can see. 4 + bedroom walk-out bungalow residence plus 1 bedroom complete guest house each with attached 3 car garages! Minutes to town and top schools. Superb location.

The History

The lands were acquired well in advance of the residence being constructed. The owner had selectively harvested trees for decades from their own woodlots around the Township in anticipation of the construction. The materials and design were meticulously researched and created by the owners and their architect.
